

Have your own film made at SAR 2010

Face UP TV, who are exclusively filming SAR 2010, have a limited amount of opportunities left to make a film of your company at the show. For a nominal fee, the camera crews are happy to make a 3-4 minute video of your company. This can involve interviews with key personnel or clients, product or service reviews. All filmed and edited professionally.

Your promotional film can be embedded onto your own website and may be included in the main film of the show.
