One unique exhibition, two focused conferences

An event dedicated to the rotorcraft and unmanned systems communities.

Heli & UV Pacific 2010 will take the form of a two-day event, including a two-day conference and exhibition. In 2010 we will also showcase an impressive static display, with both military and civil aircraft on hand for close inspection. This is a must-attend event for the wider helicopter industry.

The two-day Heli Pacific conference will look at the rotorcraft industry as a whole, examining military developments and also discussing issues affecting civil and parapublic operations.

The two-day UV Pacific conference will cover unmanned systems in all three operating environments: air, land and sea.

Past Heli & UV Pacific events have attracted

20 countries **600** attendees **50** exhibitors
